

TECHNICAL DATA SHEET

PRODUCT NAME : ALPATE 7670 NS

October 08, 2018

PRODUCT DESCRIPTION :

Aluminium paste with Mineral Spirit and Naphtha solvents

MSDS code : Alp WS/N

PRODUCT SPECIFICATION

Characteristics	Typical value	Unit	Test method
Non volatile content	64,00 Min 66,00 Max	%	TE MA n°49
Screen analysis @45 µm	0,03 Max	%	TE MA n°15
Colour	In accordance with our standard		TE MA n°224+191

INDICATIVE VALUES

Characteristics	Typical value	Unit	Test method
Volatile content	36,00 Max	%	TE MA n°49
Solvent composition	Mineral Spirit and Naphtha		
Non volatile composition	Aluminium flake and fatty acid		
Average particle size	14,50	µm	TE MA n°223 Malvern Mastersizer
Specific gravity	1,50	g/cm3	By calculation

SHELF LIFE

12 months (from production date - applicable to closed drums)

The data given in this technical data sheet are in accordance with the current status of our knowledge and experience. Technical details and information on our products are given as technical quality description and do not imply guaranteed properties in the legal sense.
