

Baeropan MC 9109 KA/1

PRODUCT INFORMATION

Description

Ca/Zn Solid Stabilizer

Typical Properties

Appearance: Fine white powder
Specific gravity at 20 °C: 1.95

Application

Baeropan[®] MC 9109 KA/1 was designed for plenum or LAG jacket applications. It is a lead-free stabilizer system for extrusion applications. It is also suitable for sulfide-stain resistant applications. Dosage is dependent on formulation.

Baeropan[®] MC 9109 KA/1 will be prone to water absorption in the finished product which will result in a decrease in volume resistivity.

Baeropan[®] MC9109 KA/1 has a finer quality calcium than its predecessor Baeropan MC 9109 KA.

Food Packaging Approval

Baeropan[®] MC 9109 KA/1 may not be used for the manufacturing of food packaging materials.

Handling

A material safety data sheet for the handling of this product is available on request.

Storage

Dry storage at room temperature is recommended. Shelf-life is 6 months after production. Subsequent aged material should be requalified for suitability of use. Once opened, packaging should be firmly closed. Product is sensitive to moisture.
