Product Data Sheet - Test Product

Pigments & Additives Division

Ceridust 8020 TP

Edition 11.07.2011

Copolymer Wax

Product-No.: 234868

CAS-No.:

Version:

4

Product Description

Highly modified copolymer wax

General Properties

Characteristics	Unit	Target Value	Test Method
Appearance		yellowish micronized powder	QM-AA-634
Acid Value	[mg KOH/g]	~ 84	QM-AA-351a
Drop Point	[°C]	~ 73	ISO 2176
Particle size d50	[µm]	~ 8,0	QM-AA-112

Delivery Form

Micronized Powder

Packaging

Pallet 600 kg (30 bags)

Paper bag 20 kg

Main Applications

-solvent and waterbased Coatings:
improved matting and scratch resistance
-release agent

Storage

For best shelf life store this product in a dry area at normal ambient temperatures.
Minimum shelf life is 2 years from the date of shipping when properly stored.

Status under Food Legislation

The product fulfils the requirements of EU-Directive 94/62/EC and the CONEG legislation that means, the cumulative content of Cd, Pb, Hg and Cr(VI) does not exceed 100ppm.

Hazards

The product does not require a hazard warning label according to the German federal regulations of hazardous substances (GefStoffV).
For further information please refer to the material safety data sheet.

Ecological and Toxicological Properties

Acute oral toxicity LD50: >2000 mg/kg
Insoluble in water
No harmful effects to fish and bacteria
The toxicological and ecotoxicological effects are not proved by tests.
