#### 1. Identification

#### 1.1. Product identifier

Trade name SIPERNAT® D 17

Chemical Name Silane, dichlorodimethyl-, reaction products with silica

CAS-No. 68611-44-9

#### 1.2. Recommended use of the chemical and restrictions on use

Relevant applications identified Anticaking agent

Defoamer

Flow-promoting agent.

#### 1.3. Details of the supplier of the safety data sheet

Company Evonik Corporation USA

299 Jefferson Road

Parsippany, NJ 07054-0677

USA

Telephone 973-929-8000

Telefax 973-929-8040

Email address Product-Regulatory-Services@Evonik.com

## 1.4. 24 HOUR EMERGENCY TELEPHONE NUMBERS:

**CHEMTREC - US &** 

800-424-9300

CANADA:

**CHEMTREC MEXICO:** 01-800-681-9531

CHEMTREC +1 703-527-3887 (collect calls accepted)

INTERNATIONAL:

Product Regulatory : 973-929-8060

Services

#### 2. Hazards identification

## 2.1. Classification of the substance or mixture

Classification according to Regulation 29CFR 1910.1200

Remarks

Not a hazardous substance or mixture.

## 2.2. Label elements

Statutory basis Classification according to Regulation 29CFR 1910.1200

Remarks Not a hazardous substance or mixture.

## 2.3. Other hazards

None known

**Silane, dichlorodimethyl-, reaction products with silica** Not a PBT, vPvB substance as per the criteria of the REACH Regulation.

## 3. Composition/information on ingredients

#### 3.1. Substances

• Silane, dichlorodimethyl-, reaction products with silica <= 100%

CAS-No. 68611-44-9

Remarks Not a hazardous substance or mixture.

#### 3.2. Mixtures

not applicable

#### 4. First aid measures

## 4.1. Description of first aid measures

#### Inhalation

In case product dust is released: Possible discomfort: cough, sneezing

Move victims into fresh air.

#### Skin contact

Wash off with soap and plenty of water.

### Eye contact

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes or until all material has been removed. Obtain medical attention.

#### Ingestion

If accidentally swallowed, rinse mouth thoroughly with water and afterwards, drink plenty of water. In case of discomfort, obtain medical attention.

## 4.2. Most important symptoms and effects, both acute and delayed

## Symptoms 5

None known

#### 4.3. Indication of any immediate medical attention and special treatment needed

No hazards which require special first aid measures.

#### 5. Fire-fighting measures

## 5.1. Extinguishing media

Suitable extinguishing media: Water spray, foam, CO2, dry powder., Adapt fire-extinguishing measures to

surroundings

Unsuitable extinguishing media: Do not use full-force water jet in order to avoid dispersal and spread of the fire.

#### 5.2. Special hazards arising from the substance or mixture

May be released in case of fire: carbon monoxide, carbon dioxide, organic products of decomposition.

#### 5.3. Advice for firefighters

As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.

### 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Wear personal protective equipment.

#### 6.2. Environmental precautions

Obey relevant local, state, provincial and federal laws and regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.

## 6.3. Methods and material for containment and cleaning up

Sweep up or vacuum up spillage and collect in suitable container for disposal.

## 7. Handling and storage

## 7.1. Precautions for safe handling

Use with adequate ventilation.

## 7.2. Conditions for safe storage, including any incompatibilities

## Advice on protection against fire and explosion

Take precautionary measures against static discharges.

### **Storage**

Keep tightly closed in a dry and cool place.

### **Dust explosion class**

1 m3 vessel = not dust explosive VDI Guideline 2263 sheet 1

## 8. Exposure controls/personal protection

#### 8.1. Control parameters

#### 8.2. Exposure controls

#### Personal protective equipment

## Respiratory protection

A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 or applicable federal/provincial requirements must be followed whenever workplace conditions warrant respirator use. NIOSH's "Respirator Decision Logic" may be useful in determining the suitability of various types of respirators.

#### Hand protection

Wear protective gloves made of the following materials: material, rubber, leather.

### Eye protection

Wear safety glasses with side shields. In case dusts are formed, wear close fitting protective goggles.

#### Skin and body protection

A safety shower and eye wash fountain should be readily available.

To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

## Hygiene measures

When using, do not eat, drink or smoke. Wash face and/or hands before break and end of work.

To ensure ideal skin protection: use super fatted soaps and skin cream for skin care.

Wash contaminated clothing before re-use.

#### Protective measures

Handle in accordance with good industrial hygiene and safety practice.

If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. If workplace exposure limits are exceeded and/or larger amounts are released (leakage, spilling, dust) the indicated respiratory protection should be used.

## 10. Stability and reactivity

## 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

## 10.2. Chemical stability

Stable under recommended storage conditions.

### 10.3. Possibility of hazardous reactions

Possibility of hazardous See

See Sect. 10.1 Reactivity.

reactions

#### 10.4. Conditions to avoid

Hydrophobic properties disappear at temperatures > 300°C

## 10.5. Incompatible materials

None known

## 10.6. Hazardous decomposition products

decomposition products with heating above decomposition temperature Carbon monoxide, Carbon dioxide (CO2), organic products of decomposition

## 11. Toxicological information

## 11.1. Information on toxicological effects

Acute oral toxicity LD50 Rat: > 7900 mg/kg

Toxicity to reproduction no evidence of reproductiontoxic properties

Version

Human experience Silicosis or other product specific illnesses of the respiratory tract were not

observed in association with the product.

## 12. Ecological information

12.1. Toxicity

Toxicity to fish LC50 (Brachydanio rerio): > 10000 mg/l / 96 h

Method: OECD 203

Toxicity in aquatic EC50 Daphnia magna: > 10000 mg/l / 24 h

invertebrates Method: OECD 202

Toxicity to algae IC 50 Desmodesmus subspicatus (green algae): > 10000 mg/l / 72 h

Method: OECD 201

12.2. Persistence and degradability

Biodegradability The methods designed to assess persistence and biodegradability are

not applicable to this product, in analogy to inorganic substances.

12.3. Bioaccumulative potential

Bioaccumulation Not to be expected.

12.4. Mobility in soil

Mobility No remarkable mobility in soil is to be expected.

12.5. Other adverse effects

Further Information The data we have at our disposal do not necessitate identification

concerning environmental hazard.

#### 13. Disposal considerations

#### 13.1. Waste treatment methods

### **Product**

Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method.

### Uncleaned packaging

Packaging material should be recycled or disposed of in accordance with federal, state and local regulations.

## Not dangerous according to transport regulations.

14.1. UN number:

14.2. UN proper shipping name: –

14.3. Transport hazard class(es): –

14.4. Packing group: –

14.5. Environmental hazards (Marine pollutant):

14.6. Special precautions for user: Yes

Not dangerous according to transport regulations.

## 15. Regulatory information

#### **US Federal Regulations**

#### **OSHA**

If listed below, chemical specific standards apply to the product or components:

None listed

#### Clean Air Act Section (112)

If listed below, components present at or above the de minimus level are hazardous air pollutants:

» None listed

#### **CERCLA Reportable Quantities**

If listed below, a reportable quantity (RQ) applies to the product based on the percent of the named component:

None listed

## SARA Title III Section 311/312 Hazard Categories

The product meets the criteria only for the listed hazard classes:

No SARA Hazards

## SARA Title III Section 313 Reportable Substances

If listed below, components are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

None listed

#### **Toxic Substances Control Act (TSCA)**

If listed below, non-proprietary substances are subject to export notification under Section 12 (b) of TSCA:

None listed
