Pale GD Serial number: Pale GD/E

(1/5)

# Safety Data Sheet

Date of issue: 2019/03/20 Date of revision: 2022/10/01

#### 1. IDENTIFICATION

Cosmicolor Stratone Pale GD Product name:

TOYO ALUMINIUM K.K. Company name:

6-8, Kyutaromachi 3-chome, Chuo-ku, OSAKA, 541-0056, JAPAN Address:

Powder & Paste Team, Quality Assurance Unit Section:

Telephone: +81-745-69-3489 +81-745-69-3091 Emergency telephone:

Recommended uses: Aluminium pigment for cosmetic

### 2. HAZARD IDENTIFICATION

[Hazard Classification]

Physical Hazards Not applicable

Health Hazards Acute toxicity (oral) Category5

> Specific target organ toxicity - repeated exposure Category1

> > (lungs)

Environmental Hazards Hazardous to the aquatic environment - chronic

Category4

Other Hazards Not applicable

Hazards that aren't written as the above are "Can't classify" or "Not Classified."

#### [GHS Label elements]

**Pictogram** Signal word Danger

H303 May be harmful if swallowed

H372 Causes damage to organs through prolonged or repeated exposure

H413 May cause long lasting harmful effects to aquatic life

### Precautionary statements

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position

comfortable for breathing.

P312 Call a POISON CENTER or doctor/physician if you feel unwell.

P370+P378 In case of fire: Use metal fire powder for extinction.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

P405 Store locked up.

P501 Dispose of contents/container in accordance with applicable regulations.

(2/5)

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Mixture

Chemical Name	Composition (%)	ENCS (Japan)	CAS
Aluminium flake	59 ~ 63	-	7429-90-5
Silicon dioxide	28 ~ 32	1-548	7631-86-9
Iron oxides (Fe3O4)	7 ~ 11	1-357	1317-61-9

4. FIRST-AID MEASURES

IF INHALATION: Move victim to fresh air and keep at rest and get medical attention.

IF ON SKIN: Remove contaminated clothing/shoes, wash contaminated area with clean running

water and soap. If inflammation or pain occurs, get medical attention/advice.

IF IN EYE: Immediately rinse with plenty of clean running water for 15 minutes or more and

get medical attention/advice. Not rub victim's eves. In the case victim wears

contact lenses, remove them if possible.

IF SWALLOWED: Remove materials in mouth and get medical attention/advice.

Protection of the person who

In case of inhalation, first aid provider should wear protective mask, in case gives the first aid:

of skin contact, wear protective equipment such as rubber gloves.

Wear protective glasses if necessary.

### 5. FIRE-FIGHTING MEASURES

Extinguishing media: Dry sand, glass fiber clothing, mica powder

Unsuitable extinguishing Water, extinguishing media containing water, foam extinguishing media,

media: halogen extinguishing media, powder extinguisher by gas spray

Specific fire-fighting If aluminium powder on the floor or in a container is burning, put mica powder method: or dry sand around the origin of fire without generating dust to form a circle for isolation and try smothering extinguishment by covering it by dry sand,

glass cloth. Treat or transport burned aluminum powder after confirming the

inside temperature did not rise after one day.

## 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, If in doors, adequately ventilate until processing is complete.

If spilled on the floor, it makes floor slippery and mind your step. protective equipment and

emergency procedures:

Do not release leakage to river or sewage directly. Environmental precautions:

Stop leakage, if safe to do so. When leaked from the package wipe with cloth Methods and materials for

containment and cleaning up: (waste cloth) and store in sealed package where no water, acid or alkali

exists. Dispose of as industrial waste.

Prevention of secondary

Use equipment that do not cause spark. Avoid flowing into drainage, sewage or

disaster: the basement and other closed places.

Pale GD Serial number: Pale GD/E

(3/5)

### 7. HANDLING AND STORAGE

[Handling]

Install equipment described in "8. EXPOSURE CONTROLS/PERSONAL PROTECTION" Engineering measures:

for local exhaust/total ventilation.

Do not handle until all the safety precautions have been read and understood. Special precautions:

Prohibit using high temperature material, spark or fire in surrounding area.

Do not eat, drink or smoke when using this product.

Wash the hands thoroughly after handling. Avoid swallow and contact with skin.

Use only outdoors or in a well-ventilated area.

Do not breathe dust, fume, spray.

Install ventilation for exhaust to keep the concentration in the air below

the exposure limit.

Avoid release to the environment.

Storage conditions: In the store room, install the day lighting, lighting, and ventilating

equipment needed for storing or handling the product.

For floors of the storage room, apply a structure that prevents water

influx/infiltration.

Store away from ignition sources such as heat, spark or fire.-No smoking.

Store away from oxidizing agent.

Store in sealed container at fixed place where protection from light and ventilation are adequate and temperature and humidity are appropriate.

Use containers specified by Fire Service Law or UN transport regulation. Container material:

## EXPOSURE CONTROLS/PERSONAL PROTECTION

Administrative level, acceptable concentration limit

	Administrative level	Acceptable concentration limit	ACGIH
Aluminium flake	I	Inhalation dust 0.5mg/m3 Total dust 2mg/m3	TWA:1mg/m3(R) STEL: -
Silicon dioxide	_	10ppm	TWA:10ppm STEL: -

[Facility measures] Use explosion-proof electrical/ventilating/lighting equipment.

Require the local exhaust ventilation in the working place.

[Protective equipment]

Respiratory organ: Use dust respirator. Hand: Use protective gloves. Eve: Use safety goggles.

Skin and body: Use antistatic working clothes.

[Hygienic measures] Wash the hands thoroughly after handling.

Pale GD Serial number: Pale GD/E (4/5)

PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Solid (powder) Colour: Metallic gold Odour: Odorless

Initial boiling point and boiling range: If data is available, it is described below.

Flammability: Not applicable

Explosion limit: If data is available, it is described below. Flash point: If data is available, it is described below. Auto-ignition temperature: If data is available, it is described below.

Decomposition temperature: N A :Ha N. A. Kinematic viscosity: N. A.

If data is available, it is described below. Vapor pressure:

Relative density(g/cm3, calculted): 2.4 N. A. Relative vapour density: 1-100 Particle characteristics (D50) ( $\mu$ m):

#### 10. STABILITY AND REACTIVITY

Stability: Stable under normal use.

Hazardous/harmful reactivity: React with water, acid, alkali, oxidizing agent metal oxide, halogen compound

and generate hydrogen gas. Heat accelerates the reaction.

Incompatible materials: Avoid contact with water, acid, alkali , oxidizing agent (peroxide, sulfuric

acids etc), halogen compounds (chlorine carbon hydrides).

### 11. TOXICOLOGICAL INFORMATION

Acute toxicity (oral) 2000mg/kg<ATEmix≦5000mg/kg and classified as Category 5.

Acute toxicity (dermal) Not applicable to category Acute toxicity (inhalation) Not applicable to category Skin corrosion or irritation Not applicable to category Serious eye damage or eye irritation Not applicable to category

Respiratory sensitization Not applicable to category Skin sensitization Not applicable to category Germ cell mutagenicity Not applicable to category Carcinogenicity Not applicable to category Reproductive toxicity Not applicable to category

Specific target organ toxicity -Category 1 is more than 1% and classified as Category 1.

repeated exposure

(lungs)

Specific target organ toxicity -

single exposure

Not applicable to category

Aspiration hazard Not applicable to category

Pale GD Serial number: Pale GD/E (5/5)

12. ECOLOGICAL INFORMATION

Hazardous to the aquatic environment - acute

Not applicable

Hazardous to the aquatic environment - chronic

Category 1+2+3+4 is more than 25% and classified as Category 4.

Hazardous to the Ozone Layer

Not applicable

Persistence and degradability: No information at this point.

Bioaccumulation: No information at this point.

Mobility in soil: No information at this point.

Other hazards: No information at this point.

13. DISPOSAL CONSIDERATIONS

Disposal: Do not reuse empty package.

Do not put sealed container in a flame.

Do not weld or melt down. When dispose of waste product and empty container

commission to legally approved industrial waste disposer.

Contaminated container and

packing:

Confirm that there is not breakage, corrosion, leakage etc. of the package. Pile containers in a way that does not cause falling, tumbling or breakage.

Put appropriate cover to avoid direct sunlight and penetration of rain. Transfer the container avoiding significant friction or shaking.

Pack, label and transfer according to related regulations.

14. TRANSPORT INFORMATION

Land Transportation: Comply with regulations. When the product significantly leak and there is a risk

of fire during transportation take precautionary measures to prevent the fire

and inform nearest fire service station.

Marine transportation: Comply with regulations.

Air transportation: Comply with regulations.

International regulation: UN class: Not applicable

UN number : Packing group -

Proper shipping name: Not applicable

Marine Pollutant: Not applicable

15. REGULATORY INFORMATION

Ensure this material is on compliance with federal requirements and ensure

it is conformity to local regulations.

16. OTHER INFORMATION
