**Specific hazards arising from the chemical:** Standard procedure for chemical fires. Possible formation of fluorine-containing fumes.

**Special protective equipment and precautions for firefighters**

<b>Special fire fighting procedures:</b>	Water used to extinguish fire should not enter drainage systems, soil or stretches of water. Ensure there are sufficient retaining facilities for water used to extinguish fire. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Containers can build up pressure if exposed to heat (fire). Cool with water spray. As in any fire, wear self-contained, pressure-demand breathing apparatus (MSHA-NIOSH approved or equivalent) and full protective gear.
<b>Special protective equipment for fire-fighters:</b>	As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.

**7. Handling and storage**
**Handling**

<b>Technical measures (e.g. Local and general ventilation):</b>	Provide for good ventilation if vapours/aerosols are formed.
<b>Safe handling advice:</b>	Avoid breathing aerosol. This may cause respiratory complications. Handle in accordance with good industrial hygiene and safety practice. Do not breathe in vapours or aerosols. If workplace exposure limits are exceeded and/or larger amounts are released (leakage, spilling, dust) the indicated respiratory protection should be used. Wear suitable protective equipment. Avoid contact with eyes, skin, and clothing. If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. Please refer to our web site: <a href="http://www.protectosil.com">www.protectosil.com</a> Spray applications in building protection: Please observe our instructions for use in our product information/technical data sheets; available at <a href="http://www.protectosil.com">www.protectosil.com</a> Benefit from our "Technical Training Program" If a product contains this active substance and is resold again, the distributor shall have to assure that this information will be communicated to the subsequent users. Avoid contact with eyes, skin and clothing. Use with adequate ventilation. Avoid breathing vapor or mist. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Wash thoroughly after handling.
<b>Contact avoidance measures:</b>	No data available.
<b>Hygiene measures:</b>	When using, do not eat, drink or smoke. Wash face and/or hands before break and end of work. Remove contaminated or saturated clothing. Wash contaminated clothing before reuse.
