

InCal[®] 11

InCal[®] 11 is a remarkably pure and highly engineered untreated ground calcium carbonate product with specifications designed to ensure performance in a wide array of applications including paint, rubber compounds, adhesives and caulks.

Chemical Composition		
Attribute	Value	Method
<i>% CaCO₃</i>	99.3 %	XRF
<i>% Acid Insoluble Fraction</i>	0.3 %	XRF
Typical Particle Size Distribution		
<i>Median</i>	11 μm	Malvern – Aqueous
<i>Topcut</i>	50 μm	
Color		
<i>Brightness</i>	93	Hunter L*

2180 South 1300 East Suite 600 Salt Lake City, UT 84106
