

Silcolapse® 710

DELIVERING YOUR POTENTIAL

October 2017

Silicone Antifoam Compound

Description	Silcolapse® 710 is a 100% active silicone ar and defoaming properties in a wide variety of those with incidental food contact as well as controls foam at concentrations as low as 10 product gives good results at wide-ranging p a problem.	f aqueous and non-aqueous applicatior food processing applications. The prod ppm solids, even at elevated temperat	ns including uct effectively ures. The
Applications	Silcolapse[®] 710 is a broad spectrum antifoa control or destroy foam in many industrial, fo applications in which it can be used include:		
	 Beverages, Juices, Sauces and Soup: foam, Silcolapse[®] 710 will reduce or elim food and beverage applications Fruit and Vegetable Washing and Prog generate foam, Silcolapse[®] 710 will reduc washing, potato processing and sugar bee Dairy Products: Dairy and cheese production processes Meat, Poultry and Seafood: Meat, poul generate foam Silcolapse[®] 710 will reduce rendering, egg washing and seafood proc Fats and oils: Production and processin foam Silcolapse[®] 710 will reduce or eliminate foam Silcolapse[®] 710 will reduce or eliminate 	inate foam problems during the process cessing: Many fruit and vegetable proc ce or eliminate foam in raw fruit and veg et and sugar cane processing uction and processing can generate foa oam problems during the processing in try and seafood production and process ee or eliminate foam problems in meat a essing and production og materials into edible fats and oils can nate foam problems during processing d anaerobic water treatment; activated	sing of many cesses getable am many dairy sing can and poultry o generate and production
Advantages	 Effective in alkaline conditions Easy to use, either as is or pre-diluted Cost efficient, effective at low doses Chemically inert, will generally not alter the properties of the foaming medium Effective at high temperatures Kosher certified 		
Characteristics	Appearance Actives, % Diluents <u>Please note</u> : The typical properties listed in this bulletin are not i SILCOLAPSE [®] silicone materials. Please contact our Technica		

Instructions for use	Trial tests should be carried out to determine the quantity of antifoam needed to produce best results and assure no adverse interference with product or process performance. Testing should be started at 10 ppm and increased or decreased based on the results.		
FDA Regulatory Information	 FDA Status The Ingredients in Silcolapse[®] 710 are permitted for FDA regulated applications as follows: 21 CFR 175.105 Adhesives 21 CFR 173.340 Defoaming agents 21 CFR 176.200 Defoaming agents used in coatings 21 CFR 176.210 Defoaming agents used in the manufacture of paper and paperboard 		
EPA Regulatory Information	 EPA Pesticide Chemical Regulations The Ingredients in Silcolapse[®] 710 are exempt from the requirement of a tolerance under EPA regulations: 40 CFR 180.910 		
Packaging	Silcolapse [®] 710 is available in 1000 kg tote containers, 200 kg drums and 20 kg pails.		
Storage and shelf life	Silcolapse[®] 710 when stored in the original, unopened container between (5-40°C), can be stored for 12 months from the date of manufacture. Beyond this date, Elkem Silicones no longer guarantees that the product meets the sales specifications.		
Safety	Please read the product label for Silcolapse[®] 710 and consult the Safety Data Sheet (SDS) before handling to review hazards as well as safe handling and storage information. If you need to obtain the SDS for Silcolapse[®] 710 , please contact your Elkem Silicones representative.
