

InCal[®] 1T

InCal[®] 1T is a remarkably pure and highly engineered treated ground calcium carbonate product with specifications designed to ensure performance in stringent, technical applications such as those found in the manufacture of thin films and fibers.

Typical Chemical Composition		
Attribute	Value	Method
% <i>CaCO₃</i>	99.3 %	XRF
% <i>Acid Insoluble Fraction</i>	0.3 %	XRF
% <i>Coating</i>	1 %	Burn Off
Typical Particle Size Distribution		
<i>Median</i>	1.9 μm	Malvern – Alcohol
<i>Topcut</i>	9 μm	
Typical Color		
<i>Brightness</i>	94	Hunter L*
