

CX 1070/4

PRODUCT INFORMATION

Description

Ba / Zn Liquid Stabilizer

Typical Properties

Appearance:	Clear Amber Liquid
Specific gravity at 20°C:	1.040
Refractive Index at 20°C:	1.4923

Application

CX 1070/4 is a cost effective, highly efficient Ba/Zn liquid stabilizer with very good heat stability for use in flexible and semi-rigid, clear and pigmented, calendered and extruded applications.

CX 1070/4 is designed for applications requiring excellent color hold under dynamic stress and is suitable for most production processes but especially for the calendering and extrusion of plasticized and semi-rigid formulations.

CX 1070/4 meets the highest requirements for heat and processing stability, and plate-out resistance at minimum use levels and stabilizer costs. It can be used for clear and white pigmented or filled semi-rigid films. It is also suitable for low fog applications.

Recommended dosage: 1.5 to 3.5 phr, depending on application.

Food Packaging Approval

CX 1070/4 may not be used for the manufacturing of food packaging materials.

Handling

A material safety data sheet for the handling of this product is available on request.

Storage

Dry storage at room temperature is recommended.
Once opened, packaging should be firmly closed.
