

PRODUCT INFORMATION

Description

Methyl tin mercaptide

Typical Properties

Appearance: Liquid
Gardner Color: ≤ 2
Specific Gravity: 1.16 -1.19 at 25⁰C

Application

Baerostab MTS 1200-US is a liquid methyl tin mercaptide, suitable for extrusion and calendaring of crystal clear and pigmented rigid films and blow-molding of bottles, as well as for injection molding of pressure fittings.

Baerostab MTS 1200-US imparts good initial color and color hold. It also provides approximately 10-20% greater heat stability than Octyl tin mercaptide stabilizers, depending on application and formulation.

As this product has no lubricating effect, it must be used in combination with suitable lubricants such as those supplied by Baerlocher.

Recommended dosage is dependent on application.

Food Packaging Approval

Baerostab MTS 1200-US is approved as an indirect food additive for some food contact applications.

Handling

A material safety data sheet for the handling of this product is available on request.

Storage

Dry storage at room temperature is recommended.
Once opened, packaging should be firmly closed.
