

# MC 93685 CP

## PRODUCT INFORMATION

### Description

Ca / Zn Solid Stabilizer for PVC

### Typical Properties

Appearance: Off white powder  
Specific gravity at 20°C: 1.624 g/cm<sup>3</sup>

### Application

MC 93685 CP is a cost effective, highly efficient Ca/Zn solid stabilizer for use in flexible and semi-rigid PVC applications.

MC 93685 CP is designed to be a direct replacement for liquid Ba/Zn stabilizers. It has mild lubricating properties and can be used with or without extra lubricants. It is not recommended for crystal clear applications.

MC 93685 CP is suitable for use in low fog, low odor, or low VOC applications. It is also suitable for applications requiring good indoor air quality. It is also designed to excellent color hold.

Recommended dosage: 2.0 to 3.0 phr, depending on application.

### Food Packaging Approval

MC 93685 CP may not be used for the manufacturing of food packaging materials.

### Handling

A material safety data sheet for the handling of this product is available on request.

### Storage

Storage at room temperature is recommended.  
Some products may be affected by moisture and containers should be kept tightly closed.
