

# B 650

## PRODUCT INFORMATION

### Description

Liquid Barium stabilizer for PVC

### Typical Properties

Appearance:	Clear light-brown liquid
Specific gravity at 20°C:	1.004
Refractive Index at 20 °C:	1.4793

### Application

B 650 is a liquid barium stabilizer that can be combined with zinc based stabilizers (foam activators) to balance foam activation when using azodicarbonamide blowing agents. B 650 can also be used as a booster to increase long term heat stability.

Recommended dosage: 0.5 to 2.0, depending on the application.

### Food Packaging Approval

B 650 may not be used for the manufacturing of food packaging materials

### Handling

A material safety data sheet for the handling of this product is available on request.

### Storage

Dry storage at room temperature is recommended.  
Once opened, packaging should be firmly closed.
