

Baerostab B 1936

PRODUCT INFORMATION

Description

Ba / Zn Liquid Stabilizer

Typical Properties

Appearance:	Clear Amber Liquid
Specific gravity at 20°C:	1.065 – 1.095 g/cm ³
Refractive Index at 20°C:	1.4955-1.5015
% Zn	1.8
% Ba	8.7

Application

Baerostab B1936 is a cost effective, highly efficient Ba/Zn liquid stabilizer with very good heat stability for use in a wide range of applications and processes

Baerostab B1936 is designed for applications requiring excellent color hold under dynamic stress and is suitable for most production processes but especially for the calendaring and extrusion of plasticized and semi-rigid formulations. It can be used with or without external lubricants.

Baerostab B1936 has mild lubrication but is very suitable for soft printable films and can extend printable shelf life of films .

Recommended dosage: 1.5 to 2.5 phr, depending on application.

Food Packaging Approval

Baerostab B1936 may not be used for the manufacturing of food packaging materials.

Handling

A material safety data sheet for the handling of this product is available on request.

Storage

Storage at room temperature is recommended.
Liquid products may be affected by moisture and containers should be kept tightly closed.
