

## TECHNICAL DATA SHEET

### PRODUCT DESCRIPTION

Date: February 9, 2015

PRODUCT NAME: PCF 200AG

TYPE: Non-leafing aluminum flake: Polymer coated

### PRODUCT SPECIFICATION

Characteristics	Typical value	Unit	Test Method
Non-volatile content	99.0	Min	by Weight
	100.0	Max	
Screen analysis >45 $\mu$	1.00	Max %	Wet screen
Color	In accordance with our standard		Drawdown

### INDICATIVE VALUES

Characteristics	Typical value	Unit	Test Method
Volatile content	1.0	Max %	by Weight
Solvent composition	Mineral spirit and high aromatic solvent		
Non-volatile composition	Aluminum flake, fatty acid, and polymer coating		
Average particle size	40.0	$\mu$ m	Microtrac
Specific gravity	2.70	$\text{g/cm}^3$	by calculation

### SHELF LIFE

12 months from production date

### ASSOCIATED SAFETY DATA SHEET

Refer to safety data sheet - MSDS code: TA-400

The data given in this technical data sheet are in accordance with the current status of our knowledge and experience. Technical details and information on our products are given as technical quality description and do not imply guaranteed properties in the legal sense. We reserve the right to modify any product data as a result of technical progress or new developments in the manufacturing process.
