Technical Instructions for Material Safety (SDS)

SECTION 1: Identification of the substance/mixture and company profile:

product name	Charge Modified Agent
product model	CE-138
supplier	Yantai Yolian Advanced Materials Co.,Ltd Add:#406 Juzheng Building, No. 44 Zhujiang RD, Economic and Technological Development Dist., Yantai China
telephone	Tel:0086-535-6393167 Fax:0086-535-6964678
mailbox	
Emergency contact	15065713555

SECTION 2: Composition/information on ingredients

Ingredients: Lipid substances.
Content: $\geq 99\%$
Appearance: granular substance
Composition of hazardous substances: None.

SECTION 3: Hazards identification

The most important harmful effect	Health hazard effect Skin contact: long-term skin contact, a few people will have allergic phenomena such as redness and irritation. Eye contact: when in contact, there is a moderate irritation. Inhalation: no harm under normal application conditions. Ingestion: no obvious toxicity or corrosiveness. If swallowed in large quantities, it will cause vomiting.
	Environmental impact: If it spills to the water source, it will pollute the water source quality.
	Special hazard: none.
	Main symptoms: irritation
	Hazard classification of articles: non-flammable liquids

Email:export@modularresins.com Website: www.modularresins.com

SECTION 4: First aid measures

First aid methods for different exposure routes:

- Inhalation: Move to a place with fresh air immediately. If you have difficulty breathing, use oxygen to help you breathe. If you suffocate, give artificial respiration and send to the hospital.
- Skin contact: Wash thoroughly with soap and water.
- Eye contact: flip the eyelids and wash them with plenty of water for more than 15 minutes.
- Ingestion: If ingested in large quantities, vomiting can be induced and sent to the hospital immediately.

The most important symptom and harmful effect: slight irritation to skin.

SECTION 5: Fire-fighting measures

Applicable fire extinguishing agents: carbon dioxide, dry powder fire extinguisher and foam.

Special hazards that may be encountered during fire fighting: smoke stimulation

Special fire extinguishing procedure: none.

Special protective equipment for firefighters: None.

SECTION 6: Accidental release measures

Personal note: the handler should wear appropriate clothing and equipment to avoid eye contact with this product.

Environmental considerations: avoid material flowing into waterways, thus polluting the quality of water sources.

Cleaning method: Scatter absorbable substances, such as sand and cotton cloth, then scoop them up and concentrate them in a closed container, and rinse the polluted area with water.

SECTION 7: Handling and storage

Disposal: Store in a cool, dry and clean place.

Storage: room temperature, do not store in places with low temperature.

SECTION 8: Exposure controls/personal protection

Engineering control: avoid sun and rain, and suggest indoor storage.
Control reference: Eight-hour daily average allowable concentration/short-time average allowable concentration/maximum allowable concentration: none.
Personal protective equipment: This product is not dangerous at room temperature, but it is still recommended to wear appropriate protective equipment to reduce the direct contact between materials and various parts of the body. ➤ Respiratory protection: mask for organic steam poison filter ➤ Hand protection: chemical-resistant gloves ➤ Eye protection: goggles with side shields ➤ Skin and body protection: long-sleeved clothes.
Hygienic measures: Contaminated clothes should be cleaned before they can be used again.

SECTION 9: Physical and chemical properties

Appearance:	Granular substance
Chromaticity (pt-co):	≤50
Content (wt%):	≥99%

SECTION 10: Stability and reactivity

Stability: stability
Possible hazards under special circumstances: None.
Conditions to be avoided: None.
Substances to be avoided: Avoid contact with substances that can react with water.
Hazardous decomposition products: carbon dioxide produced by combustion.

SECTION 11: Toxicological information

Acute toxicity: none.
Local effect: None.
Sensitivity: none.
Chronic toxicity or long-term toxicity: none
Special effects: None

SECTION 12: Ecological information

Possible environmental impact/distribution: none

SECTION 13: Disposal considerations

Disposal method of waste: according to local systems and regulations.

SECTION 14: Transport information

International transport regulations: refer to local general chemical transport regulations for non-toxic substances.
Domestic transport regulations: refer to local general chemical transport regulations for non-toxic substances.
Special delivery methods and precautions: None.

SECTION 15: Regulatory information

Usage regulations: none

SECTION 16: Disclaimer
