

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Date: February 9, 2015

PRODUCT NAME: TCR3070A

TYPE: Non-leafing aluminum paste : fully circulation resistant

PRODUCT SPECIFICATION

Characteristics	Typical value	Unit	Test Method
Non-volatile content	75.0	Min	by Weight
	77.0	Max	
Screen analysis >45 μ	0.10	Max	Wet screen
Color	In accordance with our standard		Drawdown

INDICATIVE VALUES

Characteristics	Typical value	Unit	Test Method
Volatile content	25.0	Max	by Weight
Solvent composition	Mineral spirit and high aromatic solvent		
Non-volatile composition	Aluminum flake and fatty acids		
Average particle size	14.0	μ m	Microtrac
Specific gravity	1.76	g/cm ³	by calculation

SHELF LIFE

12 months from production date

ASSOCIATED SAFETY DATA SHEET

Refer to safety data sheet - MSDS code: TA-001

The data given in this technical data sheet are in accordance with the current status of our knowledge and experience. Technical details and information on our products are given as technical quality description and do not imply guaranteed properties in the legal sense. We reserve the right to modify any product data as a result of technical progress or new developments in the manufacturing process.
