

B 4001

PRODUCT INFORMATION

Description

Liquid Bio-plasticizer for PVC

Typical Properties

Appearance:	Clear light-colored liquid
Specific gravity at 20°C:	0.995
Refractive Index at 20°C:	1.4686

Application

B 4001 is a certified biobased content (100%) liquid bio-plasticizer designed to offer higher elongations and higher tensile strength verses other vegetable-based bio-plasticizers and general-purpose plasticizers. It also offers improved compatibility and may be suited for outdoor applications.

Recommended dosage: up to 200 phr., depending on the application.

Food Packaging Approval

It has not been established if B 4001 is suitable for use in food packaging materials.

Handling

A material safety data sheet for the handling of this product is available on request.

Storage

Dry storage at room temperature is recommended.
Once opened, packaging should be firmly closed.
