acc. to OSHA HCS

Printing date 09/27/2023

Reviewed on 09/13/2023

1 Identification

Product identifier**Trade name:** DERCOLYTE® M105**Article number:** 938032**Substance name:**

CAS name: Bicyclo[3.1.1]hept-2-ene, 2,6,6-trimethyl-, polymer with 6,6-dimethyl-2-methylenebicyclo[3.1.1]heptane

Common CAS No.: 31393-98-3**Application of the substance / the mixture**

Relevant identified uses: production and distribution of the substance, adhesives, gum base resins

Details of the supplier of the safety data sheet**Manufacturer/Supplier:**

LES DERIVES RESINIQUES ET TERPENIQUES (DRT)

30 rue Gambetta

BP 90206

F-40105 DAX CEDEX

FRANCE

Tel : 33-(0)5 58 56 62 00

Email : fds@drt.fr**Emergency telephone number:**

NCEC (24/24 – 7/7):

United States : +1 866 928 0789 (Toll free)

United States : +1 215 207 0061 (involves operator intervention to identify language)

Others countries : See section 16

2 Hazard(s) identification

Classification of the substance or mixture

Combustible Dust May form combustible dust concentrations in air.

Label elements**US label elements** The substance is classified and labeled according to the US system.**Hazard pictograms** Void**Signal word** Warning**Hazard statements**

May form combustible dust concentrations in air.

Information pertaining to particular dangers for man and environment:

Prolonged or repeated exposure to vapours/fumes generated by heating this product may cause respiratory irritation with throat discomfort, coughing or breathing difficulty.

Hot molten product: Burns may cause irreversible eye injury and blindness. Causes skin burns

Classification system:**NFPA ratings (scale 0-4)**

Health = 0

Fire = 1

Reactivity = 0

(Contd. on page 2)

US

Safety Data Sheet

acc. to OSHA HCS

Printing date 09/27/2023

Reviewed on 09/13/2023

Trade name: DERCOLYTE® M105

(Contd. of page 1)

· HMIS ratings (scale 0-4)

HEALTH	0	Health = 0
FIRE	1	Fire = 1
REACTIVITY	0	Reactivity = 0

· Other hazards

Resin dusts may ignite on contact with electrostatic discharge or exposure to flames or other sources of ignition.
Hot molten product: may burn if ignited.

· Results of PBT and vPvB assessment

- **PBT:** Not determined.
- **vPvB:** Not determined.

3 Composition/information on ingredients

· Chemical characterization: Substance**· CAS Number:** 31393-98-3**· Description:**

CAS name: Bicyclo[3.1.1]hept-2-ene, 2,6,6-trimethyl-, polymer with 6,6-dimethylenebicyclo[3.1.1]heptane alpha-pinene, beta-pinene copolymer

4 First-aid measures

· After inhalation:

Supply fresh air. If symptoms are experienced, get medical attention.
In case of unconsciousness place patient stably in side position for transportation.

· After skin contact:

Product at ambient temperature:

Immediately rinse with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if irritations occurs.

Hot product:

Immediately immerse or flush the burn area with large amounts of cold water (at least 15 minutes). Do not remove solidified material from burned skin as the damaged skin can be easily torn. Transfer immediately to hospital.

· After eye contact:

Product at ambient temperature:

Immediately rinse with water. Remove contact lenses if present and easy to do. Hold eyelids apart and flush eyes with plenty of cool low-pressure water for several minutes. If symptoms persist, consult a doctor.

Hot product:

Do not open eyelids if covered with resin. Immediately flush eyes with large amounts of water for at least 15 minutes. Do not remove solidified material from burned eye as the damaged tissues can be easily torn. Transfer immediately to hospital.

· After swallowing:

Do not induce vomiting. If the person is conscious, immediately rinse out mouth with water.

- No adverse health effects are expected from accidental ingestion of small amounts of this product. In case of lasting symptoms, consult a doctor.

(Contd. on page 3)

(Contd. of page 2)

- For ingestion of large amounts: do not induce vomiting and get medical attention.
- **Most important symptoms and effects, both acute and delayed** No data available.
- **Indication of any immediate medical attention and special treatment needed**
For doctors: Mineral oil may be used to loosen and soften the material.

5 Fire-fighting measures

- **Suitable extinguishing agents:**
Carbon dioxide (CO₂), foam, fire-extinguishing powder, water spray.
Fight large fires with water spray or foam.
- **Special hazards arising from the substance or mixture** In case of fire, may release irritant and acrid fumes.
- **Advice for firefighters**
- **Protective equipment:**
Firefighters should wear appropriate protective equipment and self-contained breathing apparatus.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
Wear protective equipment. Keep unprotected persons away.
Provide adequate ventilation
Avoid formation of dust.
- **Environmental precautions:**
Do not allow product to reach soil, waterways, drains and sewers.
Inform the relevant authorities if the product has caused environmental pollution (soil, waterways, drains or sewers).
- **Methods and material for containment and cleaning up**
Pick up mechanically.
Avoid as much as you can the formation of dust.
Collect and seal in an appropriate container properly labelled for disposal.
- **Reference to other sections**
See section 8 for information on personal protection equipment.
See section 13 for disposal information.

7 Handling and storage

- **Precautions for safe handling**
For HOT MOLTEN or HOT LIQUID product: Use personal protective equipment as indicated in Section 8.
Wear appropriate personal protective equipment. Provide adequate ventilation in the workplace.
Prevent formation of dust.
Provide suction extractors if dust is formed.
- **Information about protection against explosions and fires**
Protect against electrostatic charges.
Use only non-sparking tools.
Protect from heat.

Safety Data Sheet acc. to OSHA HCS

Printing date 09/27/2023

Reviewed on 09/13/2023

Trade name: DERCOLYTE® M105

(Contd. of page 3)

Keep ignition sources away.

· **Conditions for safe storage**

Store if possible under cover in a dry, cool and well-ventilated area.

Provide storage areas with suitable ventilation to eliminate dust.

All equipment including ventilation systems must be equipotential and earthed.

Avoid dust formation close to sources of ignition.

Protect from heat and direct sunlight.

All equipments including ventilation systems must be equipotential and earthed.

· **Further information about storage conditions**

· **Recommended storage temperature:** Store at a temperature between 5 and 30°C.

8 Exposure controls/personal protection

· **Control parameters**

· **Components with limit values that require monitoring at the workplace:**

Occupational Exposure Values for dust, particulates

ACGIH TLV TWA

- total dust 10 mg/m³

- respirable dust 3 mg/m³

OSHA PEL TWA

- total dust 15 mg/m³

- respirable dust 5 mg/m³

· **Additional information:** This sheet is based on the current valid lists.

· **Exposure controls**

· **General protective and hygienic measures:**

The usual precautionary measures are to be adhered to when handling chemicals. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

Provide local exhaust or general room ventilation to minimize exposure to dust.

Immediately remove all soiled and contaminated clothing.

Avoid contact with eyes and skin.

· **Protection of hands:**

Protective, impervious gloves resistant to chemicals (standard EN 374-1). They should be replaced regularly and if there is any indication of degradation or chemical breakthrough.

· **Eye protection:** Safety glasses (standard EN 166)

· **Body protection:**

Protective work clothing

Personnel exposed to HOT MOLTEN or HOT LIQUID material should wear protective clothing that

provides protection against thermal burns. Required Protective Equipment: a) Long-sleeved protective shirt, long pants and work shoes; b) Hard hat and face shield; c) Long-cuff impervious gloves (Gauntlet type extending beyond wrist); d)

Lined rain suit with protective hood or shoulder shroud or e) Full aluminized or thermal suit with hood.

9 Physical and chemical properties

· **Information on basic physical and chemical properties**

· **General Information**

· Form:	Solid
· Color:	Yellowish
· Odor threshold:	Not applicable

· pH-value:	Not determined
--------------------	----------------

· **Change in condition**

· Boiling point/Boiling range:	Not determined.
· Softening point R&B:	101-109 °C (213.8-228.2 °F) (like ASTM E28)

· Flash point:	> 200 °C (> 392 °F) (closed cup) Method : like A9, Reg (EC) No 440/2008
-----------------------	--

· Flammability (solid, gaseous):	Not determined.
---	-----------------

· Auto-ignition temperature:	Not determined
-------------------------------------	----------------

· Decomposition temperature:	Not determined
-------------------------------------	----------------

· Danger of explosion:	The substance does not contain any chemical groups associated with explosive properties. In the form supplied, the product is not explosive. However fine dust clouds may form explosive mixtures with air.
-------------------------------	---

· Oxidizing properties	The substance does not contain any chemical groups associated with oxidising properties.
-------------------------------	--

· Vapor pressure:	Not determined.
--------------------------	-----------------

· Specific gravity:	
· Relative density at 20 °C (68 °F)	~1 (like OECD 109)
· Vapor density	Not determined.

· Solubility in / Miscibility with Water:	Not soluble or slightly soluble.
--	----------------------------------

· Partition coefficient (n-octanol/water):	Not determined
---	----------------

· Viscosity:	
· Dynamic:	Not applicable.

· Additional information	No other data Acid value < 1 mg KOH/g resin
---------------------------------	--

10 Stability and reactivity

- **Reactivity** No data from specific reactivity tests are available for this product or this class of product.
- **Chemical stability** Product stable under storage and handling conditions according to specifications (see section 7).

(Contd. on page 6)

Printing date 09/27/2023

Reviewed on 09/13/2023

Trade name: DERCOLYTE® M105

(Contd. of page 5)

- **Possibility of hazardous reactions**
In the form supplied, the product is not explosive; however, dust production may induce risk of explosion.
- **Conditions to avoid** Keep away from heat and sources of ignition.
- **Incompatible materials:** No data available.
- **Hazardous decomposition products:** No dangerous decomposition products known.
- **Additional information:**
The product is susceptible to compaction and oxidation during prolonged storage at a temperature above 30°C.

11 Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
- **Primary irritant effect:**
Fine particles and powder may cause skin irritation by mechanical abrasion. However, based on available data, the classification criteria are not met.
- **on the eye:**
fine particles and powder may cause eye irritation by mechanical abrasion. However, based on available data, the classification criteria are not met.
- **Sensitization:**
No evidence of a skin sensitization response was observed with a structurally related substance in a Guinea Pig Maximisation Test (GPMT - OECD 406)
- **Mutagenicity/genotoxicity:** No data available.
- **Carcinogenicity:** No data available.
- **Reproductive toxicity:** No data available.
- **Specific target organ toxicity - single exposure:** No data available.
- **Specific target organ toxicity - repeated exposure:** No data available.
- **Aspiration hazard:** Not applicable (solid).
- **Additional toxicological information:**
- **Carcinogenic categories**
- **IARC (International Agency for Research on Cancer)** No components listed.
- **NTP (National Toxicology Program)** No components listed.

12 Ecological information

- **Aquatic toxicity:**
Reliable short-term aquatic toxicity values have been determined in tests conducted with water-accommodated fractions (WAFs).
This method was developed for slightly soluble substances; the initial loading rate of the substance is well higher than the solubility in water.
LL and EL, similar to LC and EC, are obtained.
EL (48 h), Daphnia magna: > 100 mg/L (nominal concentration - OECD 202)
NOELr (48 h), Daphnia magna: > 100 mg/L (nominal concentration - OECD 202)

(Contd. of page 6)

- **Persistence and degradability**
The substance is not readily biodegradable (OECD 301 B conducted with a structurally related substance).
- **Bioaccumulative potential** No data available.
- **Mobility in soil** No data available.
- **Results of PBT and vPvB assessment**
- **PBT:** Not determined.
- **vPvB:** Not determined.
- **Other adverse effects** No data available.

13 Disposal considerations

- **Waste treatment methods** National and regional regulations have to be adhered to.
- **Recommendation:** Dispose of waste material in accordance with all federal, state and local regulations.
