

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Date: July 28, 2015

PRODUCT NAME: 101

TYPE: Conventional aluminum powder

PRODUCT SPECIFICATION

Characteristics	Typical value	Unit	Test Method
Screen analysis +325 Mesh	25.00 Max	%	Dry screen

INDICATIVE VALUES

Characteristics	Typical value	Unit	Test Method
Chemical Analysis:			
Free Aluminum	99.00 Min	%	by Weight
Iron	0.20 Max	%	by Weight
Silicon	0.10 Max	%	by Weight
Average particle size	30.0	µm	Microtrac

SHELF LIFE

5 years from production date

ASSOCIATED SAFETY DATA SHEET

Refer to safety data sheet - MSDS code: TA-100

The data given in this technical data sheet are in accordance with the current status of our knowledge and experience. Technical details and information on our products are given as technical quality description and do not imply guaranteed properties in the legal sense. We reserve the right to modify any product data as a result of technical progress or new developments in the manufacturing process.
