

## Castung™ 403 U-V

### product identification

Description	<p>Castung 403 U-V is a bodied dehydrated castor oil (DCO) that can be used with pure and modified phenolic resins to impart alkali resistance for can linings, corrosion resistant coatings, traffic paints, ink vehicles and marine finishes. The higher viscosity Castung 403 U-V will yield faster processing and drying times than Castung 103 G-H. Castung 403 U-V is excellent for formulating alkyd and copolymer resins, where dehydrated castor oil is well known for its non-yellowing and outstanding color retention characteristics.</p>
