

DzBh Baling YH-604T

Thermoplastic Elastomer

Hydrogenated Styrene-Butadiene Block Copolymer

Brief Introduction

Baling® SEBS YH-604T is a radial hydrogenated styrene/butadiene block copolymer .

Specification

Characteristic of Baling® SEBS YH-604T

Property	YH-604T
Styrene Content, %.	33
Solution Viscosity (10%,25°C,mPa.s)	-
Volatile Matter, %.	≤1.0
Hardness Shore A.	≥73
Tensile Strength, Mpa	≥20
Elongation, %	≥450
300% Modulus, Mpa	≥3.5

Note: Values are typical unless otherwise specified.

Packaging

DzBh Baling® SEBS YH-604T is available with the form of powder and packed in 13kg paper bags.

Applications

DzBh Baling® YH-604T could be used in sealing strip, plastic modification,cable and wire.
