

InCal[®] 3

InCal[®] 3 is a remarkably pure and highly engineered untreated ground calcium carbonate product with specifications designed to ensure performance in stringent, technical applications such as those found in paint, adhesives, sealants, rigid PVC, flexible PVC, and rubber compounds,

Chemical Composition		
Attribute	Value	Method
% CaCO_3	99.3 %	XRF
% Acid Insoluble Fraction	0.3 %	XRF
Typical Particle Size Distribution		
Median	3.5 μm	Malvern – Aqueous
Topcut	15 μm	
Color		
Brightness	95	Hunter L*
